

RISKREMOVAL

Environmental Services

Services:

We specialize in a wide variety of remediation, abatement and decontamination services:

- Asbestos abatement
- Lead abatement
- Mold remediation
- Microbial remediation and sanitation
- Biological / animal remediation
- Hazardous material removal
- Methamphetamine decontamination

Working with us:

Our goal is to work closely with our clients to provide quality abatement solutions and ensure projects are completed on-time, in a cost effective manner using the best possible social and environmental solutions available.

Commitment to Safety:

Risk Removal's safety program and company culture ensure that all work is performed in accordance with local, state and federal regulations. Our personnel are experienced and fully credentialed. All project team members receive extensive and continuous training.

Commitment to Quality:

Risk Removal understands the seriousness of hazardous materials to the environment and the people affected by these materials. That is why we strive to provide the highest quality of service, unmatched by others in the industry. We ensure that each client is given the utmost attention start to finish.

About us:

Founded in 1989, Risk Removal is a leading provider of environmental services. We bring our clients extensive experience, technical knowledge and resources to safely complete projects in compliance with all regulations while delivering a high level of customer satisfaction.
